# BAIT STATIONS

## BAIT STATIONS ARE USEFUL BECAUSE THEY:

- Protect bait from moisture and dust, making the bait more acceptable to the target animals;
- Provide a protected place for rodents to feed, allowing them to feel more secure;
- Keep non-target animals and children away from bait that may be hazardous to them;
- Help prevent the accidental spilling of bait;
- Let you inspect bait easily to see if rodents are feeding

All Bait Stations With key

### neptuno rat bait station

- Double lock for safety
- Removable bait tray inside
- Bait rod to insert blocks
- Designed to use Glue Board G2 and Drinking through
- Opening against the wall
- Sturdy, made to last

Security system which prevents people to open the cover with the hands

Bait rods security system

### rock rat bait station

- Realistic imitation of a stone.
- Ideal to use in gardens.
- Well camouflaged
- New drawer system for rodenticide placement.
- Tamper resistant
- Can be fixed in permeable soil with a stake.
- Can be fixed in impermeable soil with screws.

FEATURES

SATION WITH DODENTICIDE
